

ELEVATION TRAINING PROGRAM

Elevation Training Program

Elevation is our stylist training program, designed to grow your career in an environment filled with support, education, and business knowledge. In addition to one-to-one coaching and mentoring, our mentees build their books right from the start with opportunity days to work on their own guests. Ready for a challenge? Elevation is fast paced, intensive, and hands on.

Elevation Accelerate: 24 weeks for newly graduated cosmetologists

Our Training Journey

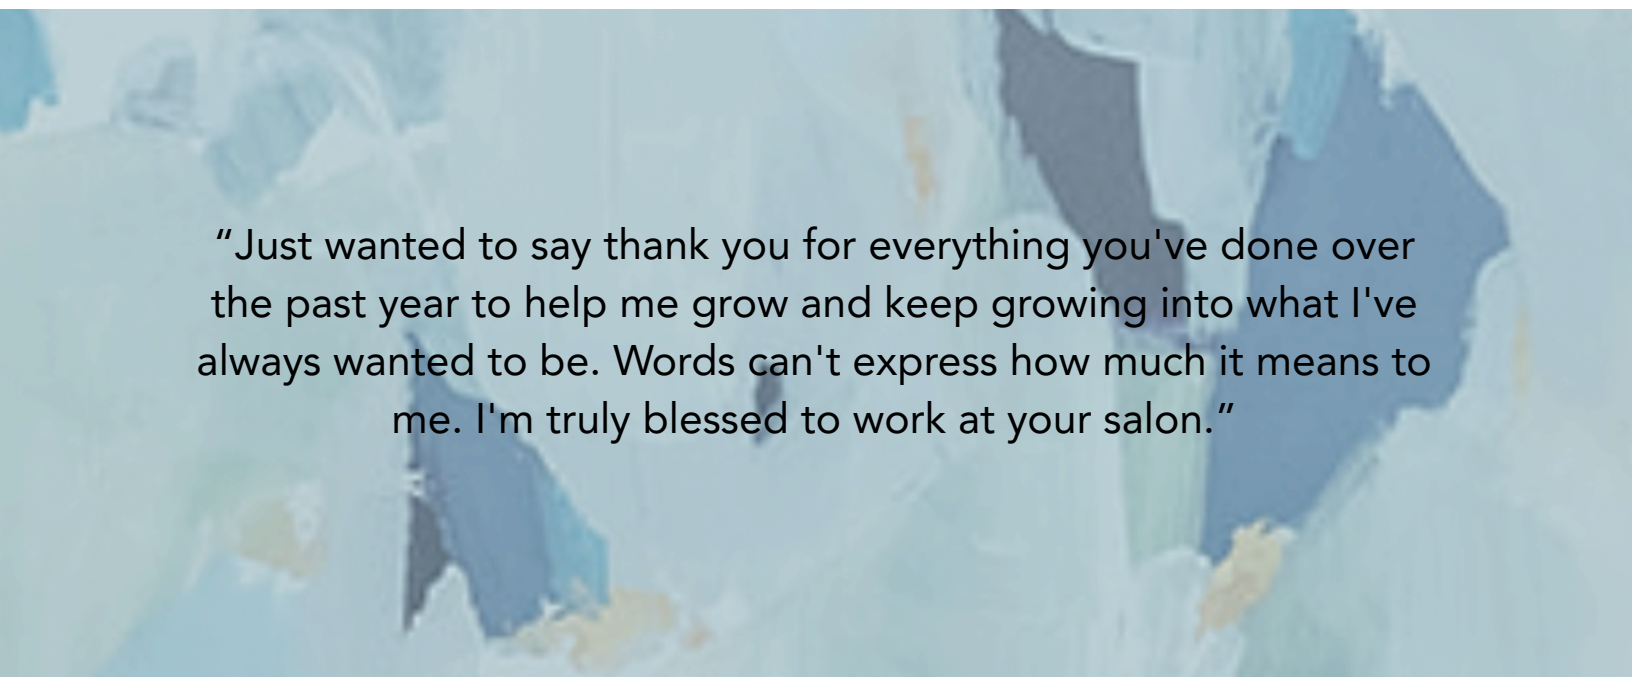

Most new stylists face one of two extremes:

They get stuck in an assistant role—shampooing, toning, blow-drying—without real growth. Or they're thrown onto the floor too soon and expected to sink or swim.

At Elevate, we do things differently. Our Elevation Training Program balances hands-on experience with personalized support.

Every week, you'll spend 8–10 hours focusing on a new service and learning in depth. You'll train one-on-one with a mentor stylist, learn new skills, ask questions, and practice until you feel confident. The very next week, you'll do models to refine your skills. Once you test out, you're open for booking that service with real clients.

This means you're not stuck assisting or having to figure it on your own—you're building confidence, independence, and a clientele from the start. In just 24 weeks, you'll be fully trained across all haircuts and color services, ready to thrive as a stylist.

"Just wanted to say thank you for everything you've done over the past year to help me grow and keep growing into what I've always wanted to be. Words can't express how much it means to me. I'm truly blessed to work at your salon."

What Our Stylists Say

"I loved how involved I was with clients from day one. The hands-on experience and amazing instructors helped me grow so much faster than I expected."

"It's organized, encouraging, and there's a real plan to help you grow—not just endless shadowing and shampooing."

"Just wanted to say thank you for everything you've done over the past year to help me grow and keep growing into what I've always wanted to be. Words can't express how much it means to me. I'm truly blessed to work at your salon."
